ASTrophysics
teacher summer internship

APPLY by April 8

WE ARE LOOKING FOR a creative high school teacher to work with us during the summer of 2016.

JOIN THE WIPAC TEAM AT UW-MADISON and lead a summer research program with a few high school students.

Build a citizen science platform that will enable users around the world to classify neutrinos from the IceCube Neutrino Observatory and cosmic rays seen with DECO, an app that turns your phone into a particle detector.

OUR IDEAL TEACHER IS someone who teaches physics, astronomy, computer science or math in high school and has some experience in data analysis and/or programming.

TO APPLY, send an email describing your expertise and interest to silvia.bravo@icecube.wisc.edu. Application review starts on March 30. This is a paid internship with a minimum commitment of 6 weeks, although 8 weeks is preferred.
